

SASSI CONTRACTOR REGISTRATION

HOW TO REGISTER IN SASSI

Check with your company's SASSI Administrator whether your company is already registered on SASSI.

If your company is registered in SASSI

Request your SASSI Administrator to link you to the required Client/Site.

To do this, they need to follow these steps

1. Have them login at <https://sassi.audit.net.au> with their username and password
2. Navigate to SASSI → ADMIN → Request to Work at Property
3. Complete the form on that page, whereby the Facilities Manager will receive notification of your request and may or may not require approval from them.

If your company is not registered in SASSI

You will need to fill out the SASSI registration page located here:

<https://sassi.audit.net.au/SASSIRegistration.aspx>. It will verify that your ABN is not already registered in our system.
